<p style="text-align: center;">AV Aspects: Narration, Scriptwriting, Sound Mix:</p> <p>This is an interesting production about a house which has a place in the history of many AV workers - you might not know that. It was very well crafted and shared a great deal of information, but never too much. The story was brought alive by references to the various characters who had been involved over its history. The use of voice and background music were very well balanced. Great photography throughout with some lovely close up images of flowers. The third party images were nicely handled and used well to tell the story.</p>
